

CLAIMS

What is claimed is:

1. A multiple time zone watch comprising:

- a. A first and a second clock mechanism wherein said first clock mechanism has a tinted lens that is distinguishable in color from the lens on said second clock mechanism;
- b. Said first clock mechanism also having at least two hands, one of which being an hour hand and one of which being a minute hand; said hands of said first clock mechanism having a color thereto; the color of said two hands being of a color that contrasts with the color of said tinted lens of said first clock mechanism; and
- c. Said second clock mechanism also having at least one hand.

2. A multiple time zone watch as claimed in claim 1 wherein said first and said second clock mechanisms are positioned next to each other, side by side.

3. A multiple time zone watch as claimed in claim 1 wherein said first clock has a clock face covered with a luminescent material that contrasts with the color of said clock hands.

4. A multiple time zone watch as claimed in claim 1 wherein said first and said second clock mechanisms are positioned one above the other.

5. A multiple time zone watch as claimed in claim 1 wherein said first and said second clock mechanisms are positioned at a substantially diagonal angle relative to each other on the face of said multiple time zone watch.

6. A multiple time zone watch as claimed in claim 1 wherein the color applied to each of said hands of each of said first clock mechanism is phosphorescent.

1 7. A multiple time zone watch as claimed in claim 1 wherein said second clock
2 also includes a tinted lens.

3 8. A multiple time zone watch as claimed in claim 6 wherein the color of said
4 tinted lens is a medium tint pastel.

5 9. A multiple time zone watch as claimed in claim 1 wherein the color applied to
6 each of said hands of each of said watch mechanisms is phosphorescent whereby
7 light reflecting off said hands onto said tinted lens causes said tinted lens to
8 glow.

9 10. A multiple time zone watch comprising:

10 a. A first clock mechanism having a tinted lens; a second clock mechanism
11 having a tinted lens that is distinguishable in color from the color of said
12 tinted lens on said first clock mechanism;

13 b. Said first clock mechanism also having at least two hands, one of which
14 being an hour hand and one of which being the minute hand; said hands
15 of said first clock mechanism having a color applied thereto; the color of
16 said two hands being of a color that contrasts with the color of said tinted
17 lens of said first clock mechanism; and

18 c. Said second clock mechanism also having at least two hands, the first of
19 which being an hour hand and the second of which being the minute
20 hand; said hands of said second clock mechanism having a color applied
21 thereto; the color of said at least two hands being of a color that contrasts
22 with the color of said tinted lens of said second clock mechanism.

23 11. A multiple time zone watch as claimed in claim 9 wherein the colors of said
24 distinguishable tinted lenses are selected from the group consisting of medium

1 tint pastel colors.
